NOTE.

ALTHOUGH the collection offered on the following pages embraces but 188 lots, we are confident that an inspection of the Catalogue will show that the sale which it announces challenges all previous American Sales in the point of average quality and high value, — by whatever standard it may be measured. The pieces described cannot fail to elicit a lively interest among American collectors, for, aside from the extreme rarity of many of the patterns, trial pieces, etc., the entire collection has a character so marked, and so peculiarly its own, that it may fairly be regarded as without a compeer in its special line.

It is hardly necessary to mention the fact, well known to most American collectors, that Dr. Linderman's cabinet contained what is universally admitted to be the finest specimen in existence of that issue of the U. S. Mint, whose adventitious value far exceeds that of any other American coin.

"Micat inter omnes
Sicut Luna inter ignes minores."

Many other pieces are worthy of special reference here, but we prefer to leave them to speak for themselves.

United States Coins.

As so few of the coins and patterns following are common, the constant repetition of "rare," "extremely rare," etc., would appear monotonous, occurring on almost every line. Therefore such terms will be omitted, as the pieces speak so well for themselves, that no intelligent collector will need the reminder as to the scarcity of each piece. The entire collection is here offered; not a single piece held back.

Half Cents.

UNITED STATES SILVER COINS.

38 **Quarter Dollar,** 1827. Proof, struck from rusted dies; the lack of polish on portions of the dies prevented the brilliancy customary with proofs of more recent date. That in the Foster Ely sale (Nov. '86) brought $210.

39 —— 1827. Proof; equally perfect and desirable.

40 **Dollar, 1804.** A **beautiful sharp proof**; evenly centred, edge lettered. The finest known specimen of this valuable coin. This piece has the advantage over the few existing specimens, in being the property of the late Director of the Mint, Dr. Linderman, which alone is a guarantee of its being struck in the U. S. Mint; it is from the same dies as that in the Mint Cabinet. The edge lettering on this is distinct; ★★★ HUNDRED ★★ CENTS ★★ ONE ★★ DOLLAR ★★ OR ★★ UNIT. The latest impressions are said to have plain edges, and others have muddled inscriptions, but this is of neither sort. At previous sales, inferior specimens have sold for $1,000 and $1,200. The perfection of the one now offered should command a large advance on all preceding prices.

41 —— 1836 Flying eagle; C. GOBRECHT . F on base; edge plain. Beautiful proof; sharp.

42 —— 1836 Duplicate; equally perfect and desirable.

43 —— 1836 Same type, but C. GOBRECHT . F, *in field* over date; edge plain. Splendid, sharp proof; seldom offered.

44 —— 1836 Duplicate of last; equally perfect and desirable.

45 —— 1838 Liberty seated, stars surrounding. Rx Flying eagle; edge plain. Sharp, beautiful proof.

46 —— 1838 Duplicate; few stars l. not quite so perfect as on preceding, otherwise equally sharp. Fine and desirable.

47 —— 1839 Same type; *plain* edge; four stars r. a trifle flat in centre, otherwise a sharp, perfect proof.

48 —— 1839 Duplicate; equally perfect and desirable.

49 —— 1851 Beautiful sharp proof. At recent sales, this and the 1852, even when imperfect, brought $50 to $55.

50 —— 1851 Duplicate; not quite so boldly struck; the stars on l. and top of hair lack sharpness, otherwise a perfect proof.

51 —— 1852 Sharp, perfect proof.

52 —— 1852 Duplicate; equally perfect.

53 —— 1874 Trade. Fine, sharp proof; slight nick on rev.

54 —— 1874 Duplicate. Fine proof, sharp.
